

## The "Cannabis Green Team" introduces Consulting Services for the Home Cannabis Grower

Visit us at [www.cannabisgreenteam.ca](http://www.cannabisgreenteam.ca) for a full list of our services.

### **Consulting Services:**

1. We can deliver an ACMPR (Access to Cannabis for Medical Purposes Regulations) designed garden for your home, based on your medical authorization and your available space. Your confidential and custom design will be created by our experienced **Cannabis Green Team grow consultants**.
2. We will perform an evaluation of your space and garden plan and make recommendations on how to conform to all Standards and Codes. We include advice from our senior **Green Team certified facility consultant** on humidity control, ventilation, automation, smell elimination, pest control, security, etc.
3. We can provide a secure and discrete **Green Team building services contractor** with WCB and Insurance to build your garden and/or install your equipment.
4. Learn how to manage all stages of cannabis growth in your home from cloning to curing. We can also provide consulting on how to make edibles and concentrates. Design your own training based on what you want to learn from the **Cannabis Green Team!**
5. Babysitting services for your ACMPR authorized Garden when you are on vacation.

Sustainability, low odour & self sufficiency are attainable.
